

News Release - MCBC Certified Marin C&D Recycling Facility — DRAFT
OHIAS (Our Health Is At Stake)

We are pleased to announce that the Marin Community Benefit Cooperative a project of OHIAS was Certified 10/22/2015 as a Marin County Construction and Deconstruction Recycling Facility. MCBC specializes in high quality reuse materials sourced locally: wood, lumber, plywood, windows, glass, stone, hardware, fixtures, architectural elements and more.

The cooperative is still in a start-up mode and without a recycling collection and reuse center. Until a location and center is established we will be unable of course to accept your donated materials and products. In the mean time we recommend you contact the Away Station in Fairfax, another MARIN LOCAL C&D Recycling Facility.

When we do open all local MARIN (MCBC) members will be entitled to receive a 10% discount on all purchases. To establish your membership go to our SUPPORT page to register. Doing this will also allow us to contact you regarding the opening of our REUSE facility and receive opening day "member specials."

OHIAS mission and work is to educate and empower people and community to live more sustainably and responsibly and end waste (natural resources and human potential) as we know it today by taking complete responsibility for it and putting waste and people to work for the benefit of all people, community and planet.

OHIAS is located at 844 B Street in San Rafael. Please visit our web site to learn more. To arrange a meeting or interview or simply make an inquiry please call or email us.
